

Capabilities Statement

Who We Are

Exalco S.A is a major manufacturer of aluminum profiles, aluminum doors and window systems in the European Union. The continuous investment in technology since its founding in 1974, has resulted in superior production methods and logistical capabilities.

Deep Industry Experience

Having the quality and ability to comply with energy and architectural standards, our products have been preferred in projects worldwide, exporting 70% of our sales to 35 countries including the US, Qatar, France, UK.

Sustainable development

Environmentally friendly facilities, currently utilize roughly 60% of renewable energy with plans to become carbon neutral. Environmental Management System according to ISO 14001:2015 and an Energy Management System according to ISO 50001:2018.

Awards and certifications

Our relentless pursuit to provide high-quality products within exacting standards. EXALCO is certified to:

- ISO 9001:2015.
- EN 15088: 2005
- CE (R305/2011).

Key Factors

Production Capabilities

- 2 factories in Greece
- 3,230,000 Sq Ft. facilities area
- 6 aluminium extrusion lines
- 60.000 t/year aluminium profile production
- 18.000 t/year Capacity of vertical & horizontal coating system plant
- 2.000 t/year Capacity of powder coating wood imitation plant
- 6.000 t/year Anodizing production plant
- 5 Certification & quality control laboratories
- 140,000 Sq Ft. Area of automated storage units
- 600 employees
- Aluminum profiles for general structural and industrial applications.
- Aluminum systems (ALBIO) for doors, windows, building facades, atriums, and many other architectural constructions.
- Aluminum Shading Systems
- Aluminum Railing Systems
- Aluminum Composite Panels
- Aluminum systems for support bases
- aluminum frames for photovoltaic parks, rooftops, roofs and industrial roofs
